CONFERENCE CHAIR

Message

Mr. Ibrahim Khawaji

Dignitaries, Committee Members, and Esteemed Colleagues

It is with distinct honor, we welcome you to this prestigious Professional Development Conference and Exhibition (PDC&E) organized by the American Society of Safety Professionals - Middle East Chapter (ASSP-MEC), which will take place in the Kingdom of Bahrain from January 19-23, 2025.

For many decades, this platform has become a center of gravity for professionals and leaders to exchange experiences, perspectives, insights, and innovations that address current and future (HS&E) challenges, and we anticipate even greater success at this edition.

Under the theme **“BUILDING A SAFER FUTURE TOGETHER”** distinguished (HS&E) leaders and professionals from around the globe and from key industrial sectors, government organizations, professional bodies, thought leaders, and academic institutions, will all gather to explore new frontiers to advance in HSE excellence and catalyze it as a core component for a sustainable future.

This conference promises to provide unparalleled opportunities for attendees, through a wide spectrum of topics and workshops exploring and debating the latest concepts of modern (HS&E) management frameworks, instilling positive safety cultures, addressing (HS&E) challenges, particularly in the era of digitalization and new economy.

We aim to bring to you the best program, and we greatly look forward to welcoming you at this event as an opportunity to further our commitment towards (HS&E) excellence for a safer world.

ASSP - MEC PRESIDENT

Message

Mr. Tariq Bin Saleh

On behalf of the Executive Committee of the American Society of Safety Professionals Middle East Chapter (ASSP-MEC), and its members, I extend a cordial invitation to your esteemed organization to actively sponsor our upcoming 15th Professional Development Conference and Exhibition event, scheduled for January 19-23, 2025, in the Kingdom of Bahrain.

As the premier (HS&E) conference in the region, this event garners significant interest from major stakeholders, including academic institutions, Oil and gas, Petrochemicals companies, Minerals and government organizations.

The upcoming conference presents an excellent opportunity for suppliers and vendors to showcase their offerings, network with attendees, and gain visibility. I encourage your participation as a sponsor/exhibitor to leverage the numerous opportunities for your staff to learn, discover, and engage with their peers. I look forward to discussing the various ways your organization can participate at your earliest convenience.

INTRODUCTION

The American Society of Safety Professionals (ASSP) is an independent nonprofit professional organization with more than 34,000 professional members worldwide. The ASSP's mission is to foster technical, scientific, managerial, and ethical knowledge, skills and competency of health, safety and environment (HS&E) professionals for the protection of people, property and the environment.

The Middle East Chapter (ASSP-MEC) was established in 1982 and has held several conferences and technical meetings in the Gulf region. These events have attracted many international speakers, a variety of exhibitors and many attendees. The broad range of subjects addressed, the sharing and dissemination of knowledge, and the resulting discussions made previous conferences a recognized success.

CONFERENCE OBJECTIVES

The objectives of the 15th ASSP-MEC Professional Development Conference & Exhibition encompass, but are not confined to:

- Illuminate prevailing global and Middle Eastern (HS&E) challenges impacting both industry and society,
- Disseminate pioneering solutions for effectively addressing these challenges,
- Foster meaningful networking opportunities among seasoned professionals in relevant fields,
- Spotlight the latest and most advanced (HS&E) products and services within the region.

CONFERENCE TOPICS

In addressing the escalating challenges confronting industries globally and in this region, this conference aims to unveil the latest innovative approaches. It seeks to share solutions that not only allow seamless industry operations but also uphold the highest standards of (HS&E).

The encompassing challenges involve concerns over major incidents affecting safety and the environment, the substantial costs linked to such events, stringent regulations, escalating traffic accidents, security in industrial facilities, cyber security, information protection, and the impact of aging infrastructure on safety. Covering all facets of (HS&E) in process industries like oil, gas, minerals, chemicals, and petrochemicals, the conference delves into pertinent issues affecting both industry and the public.

RISK MANAGEMENT

- Growing reliance on risk assessments as a decision making tool
- Public perception of safety and cultural impacts on risk assessments
- Operational safety and real-time monitoring/ measurement of risk
- Enterprise risk management

SAFETY LEADERSHIP

- Safety culture and effective leadership
- Legislative advancement compliance, and best practices
- Sustainable safety performance

WOMEN IN SAFETY

- Challenges women face entering into the workforce and how to overcome them
- Women In Leadership
- What value can women add to the (HS&E) industry

PROCESS SAFETY

- Land planning and management of public encroachment on industrial facilities
- Aging infrastructure and its impact on safety
- Pipeline safety and risk management in highly populated areas
- Post-accident management and emergency response plan (ERP) activation challenges
- Emergency response and disaster management

ENVIRONMENT & HEALTH

- Pollution and hazardous waste management in highly industrialized areas
- Climate Change Initiatives
- Reducing emissions to address climate change.
- Environmental challenges of new economic activities in the region (e.g., plans to invest more in downstream/ petrochemical industries, comparison between the environmental situation and international standards, etc.)
- Carcinogen control

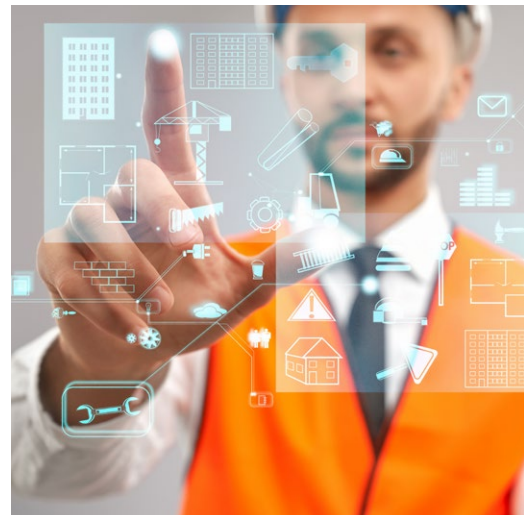

MINING SAFETY

- Technology Integration
- Ventilation Systems
- Environmental Impact
- Fatigue Management

ADVANCED TECHNOLOGY & DIGITALIZATION

- Predictive Analytics for Workplace Safety
- Health Monitoring
- Training and Simulation
- Emergency Response Optimization
- Continuous Improvement Through Data Analysis

SPECIAL TOPICS

- Contractor Safety
- Transportation and traffic safety
- Aviation safety
- Fire prevention and enforcement of building codes
- Sharing of best practices and lessons learned from incidents.
- Chemical laboratory safety
- Security and Military Safety

SPONSORSHIP & MARKETING OPPORTUNITIES

In the domain of Sponsorship & Marketing Opportunities, esteemed companies and consultants within the oil, gas, petrochemical, and allied industries have pledged their support for this event. This endorsement stems from the shared belief that (HS&E) issues hold paramount importance in this region.

The conference and exhibition, both serving as exceptional networking platforms, present sponsors with direct access to potential and existing clients within their target market. Notably, the emphasis on the conference program's quality ensures the attraction of key safety professionals from the region, fostering meaningful connections crucial to your business. The Organizing Committee has meticulously defined sponsorship categories, establishing a framework for meaningful participation and collaboration.

The Organizing Committee has established the following categories of sponsorship:
